Street Cut Required? Yes No

Cut Repair Required? Yes No

The undersigned Plumber hereby requests permission to perform the above work at the described site and agrees that he will notify and coordinate with the appropriate City Officials 48 hours in advance of excavating. The Plumber agrees that all work, including piping, connections, joints, and all other installations, will be left exposed until inspected and accepted by the City Official, that he will provide a safe means of access to perform the inspection, and that he will provide the City Superintendent with written and sketched “As Built” information, including measurements, upon completion of the work.

The (Plumber) (Owner) shall be responsible for payment of all costs of the proposed work, including permit fees, hookup charges, and/or street cut charges, and no work shall be performed until payment of these costs have been made to the City.

The undersigned do hereby further declare under penalty of perjury that the work will be performed in accordance with all provisions of the City Codes and that NO facilities will be installed which will result in the introduction of any storm water, ground water, roof runoff, surface or subsurface water, drainage, cooling water, or industrial process waters into the sanitary sewer system of the City of Warroad.
